

2018-2019 Annual Report

BOYS & GIRLS CLUB
OF COLLIER COUNTY

**Opening Doors to
3,000 Kids**

6 Core Program Areas:

- Education
- Career Development
- Character & Leadership
- Health & Wellness
- The Arts
- Sports & Recreation

Our Mission:

To enable all young people, especially those who need us most, to reach their full potential as productive, caring, responsible citizens.

Dear Friends and Supporters,

We can't thank you enough.

Because of you, over 3,000 kids and teens walked through our doors this year, ready to reach their full potential. Your gift of volunteer hours, in-kind donations, and financial support allowed members to get college and career ready, live healthier lifestyles, and become leaders in their Club, school, and community.

The theme for this year's annual report is Opening Doors to a Great Future. We are featuring the many ways in which our Clubs encourage new experiences and activities that open the doors to a Great Future. We cannot take a single approach to help kids succeed. It takes mentors, a safe environment, high-quality programs, and unique enrichment experiences to get our kids ready to face the world as productive, caring, responsible adults.

For 2018-2019, we are proud to report:

- 100% of our seniors graduated from high school and were placed in college, technical/career training school, or the military
- 100% of our youth made academic progress during the school year
- Every single child received a scholarship to attend our Clubs
- Over 235,000 healthy meals served to our youth

While we celebrate the successes of last year made possible by your support, we look forward to big plans in 2019-2020. We are continuing to focus on quality, giving our kids the very best Club experiences through the staff and programs that shape their lives. We are stretching our fundraising goals to build greater capacity and create sustainability for our clubs. We are investing in programs and community partnerships, particularly in the area of workforce development, that give kids the skills, experiences, and practice they need to fulfill their passions and serve as productive members of society.

Because of your tremendous support, Boys & Girls Club of Collier County is well situated to continue to provide our children and teens with access to vital programming offered at our local Clubs. We could not, and cannot, do this without your selfless support. Thanks to you, thousands of young people in Collier County are on their paths to a Great Future.

Sincerely,

Megan McCarthy Beauvais, M.Ed.
President & Chief Executive Officer

Susan Bass Bolch
Chairman

A Year in Review

This amazing group of young men recently returned to our club after a 10-day journey in Arizona through the No Barriers USA program. This awesome experience, centered around the philosophy that what is within you is stronger than what is in your way had an incredible impact on our Club's youth.

Boys & Girls Club of Collier County member wins 3rd place for her mixed media art piece in a National Fine Arts Competition.

Too Good for Drugs is an evidence-based prevention program discussing the negative consequences of drug use and the benefits of a nonviolent, drug-free lifestyle. The program also focuses on developing personal and interpersonal skills to resist peer pressures, enhance goal setting and decision making, manage emotions, communicate effectively and have respect for self and others. Age appropriate curriculums are implemented with different activity kits per grade level, Kindergarten through 8th grade. There is ease in replication and can be tailored to spend more time in areas we see our members needing additional help, coaching, or guidance. Awarded Health and Life Skills Program of the Year in Florida.

Boys & Girls Club of Collier County is proud of the work our Torch Club Safety Patrol team puts in every day to make sure our Clubs are a safe place for our Members to learn, grow, and pursue their Great Future.

Our Numbers

- ▶ The Arts
- ▶ Sports & Recreation

100% of members receive partial or full scholarships to attend our Clubs

89% Nichols campus members

99% Bolch campus members

The majority of Club members receive a free or reduced-cost lunch at school:

2018-2019 Youth of the Year Islande

Because of my time at the Club, I feel ready to face the challenges ahead of me. In Mr. & Ms. Manners class I learned how to speak with confidence and poise, which gave me the tools to compete in and win this year's Youth of the Year competition! I have learned time management skills that allow me to succeed while balancing working part-time as a Youth Development Professional at the Boys & Girls Club of Collier County, going to school, tutoring, and mentoring Club kids. Above all else, my Club was a safe place for me to learn, grow, and pursue my Great Future.

Career & Technical Education

Parmelie

Parmelie is a junior staff member in our culinary department. She likes the experience and friendships she has made since beginning work and has especially enjoyed learning about the organization of a kitchen and how to properly order her work station. She says a bright spot in her day is when she gets to interact with the younger Boys & Girls Club of Collier County members. "I have learned a lot about communication with people of all ages and how to stay organized, both are skills I know I will carry with me for the rest of my life".

Our Club members love to learn about Computer Aided Design and how it can be applied in our Walmart Foundation CAD Lab.

We love when people volunteer their time to teach our members about their work! Our young people had a blast learning about carpentry in our Career & Technical Educational Workshop.

Local doctor and long-time friend of the Boys & Girls Club of Collier County, David Hopper, teaches Club Kids interested in the medical field how to take a patient's blood pressure.

Ready Readers:

The Ready Readers Program works with Club youth ages 6-12 to inspire a love of reading and to set the stage for successful learning. Club members work one-on-one with volunteer reading coaches weekly, building vocabulary and establishing the foundation for literacy and lifelong learning.
